

SPIE Asia

(Student Chapters)

Date: 31-06-2008 to 02-07-08

Dear SPIE member,

It's our pleasure to announce SPIE Students Chapters Conference which will be held in Singapore this year (June 30-July 2, 2008). This kind of student conference is being organized for the first time in Asia. We hope to have good interaction between SPIE student chapters, especially, from the Asian region. This conference will be conducted along with the "International Symposium on Laser Metrology, June 30-July 2, 2008, Singapore (<http://www.lm2008.org>)".

We would like to invite you or any one of your chapter's committee members to attend this conference. We would be glad to provide partial financial support to one representative of your student chapter. This support would cover the major part of your airfare. Moreover, free accommodation will be provided to representatives during the conference. Some companies, working in Optics, are also participating in the conference and they are interested in having good interaction with students for recruitment process.

We also encourage you to submit your research work to "International Symposium on Laser Metrology, (June 30-July 2, 2008, Singapore (<http://www.lm2008.org>)", (submit abstract online, due date January 31, 2008). This submission will provide an additional advantage of publishing your research work during this trip.

Highlights

- ◆ Interactive session with Dr. Kevin Harding and Prof. Asundi
- ◆ Career related talks by local companies
- ◆ Short Presentation by each chapter about their activities
- ◆ A visit to a tourist spot in Singapore followed by Dinner.
