

**SPIE JOURNALS
IMMEDIATE OPEN ACCESS PUBLICATION FORM**

SPIE offers authors the option to pay a fee of \$1500 to support publication costs and to provide free online access to the full text of their published journal article, in perpetuity, to any online user, independent of any subscriptions to the journal. Payment of the open access fee covers regular page charges but does NOT cover other publication charges, such as charges for reprints or color printing.

To select open access, please return this form with payment to SPIE either before or at the time you return your author proof corrections. **Open access to the article can be ensured only if payment in full is received by SPIE before the author's proof corrections are completed.**

NOTE: An author's choice to select open access has no impact on any aspect of the peer-review process or on the Editor's ultimate decision regarding publication. If an author chooses open access, but SPIE does not receive full payment before completion of the author corrections, the article will be published conventionally, that is, without open access. Payment of the open access fee covers regular page charges but does NOT cover other publication charges, such as charges for reprints or color printing.

Please return the completed form to:
