

Photonex + Vacuum Technologies 2021

29-30 September 2021

SEC, Glasgow, Scotland UK

The Photonex + Vacuum Expo offers you various ways to connect with your audience in Glasgow. Make plans now to meet your customers in person at the UK's top exhibition.

If your business supplies components, instruments, and systems or is involved in the generation of photonics, optical coatings or semiconductor detector developments or perhaps offers a contract service to the photonics, laser, optical or vacuum industry, you need to be at Photonex + Vacuum Technologies 2021.

Come see attendees from the UK and Europe. You'll see buyers coming just to see your products, and you'll meet conference attendees—a great opportunity to connect with the frontiers of research. Biophotonics, functional materials advances, silicon photonics, quantum and photoemission spectroscopy for materials analysis are all represented in the programme.

Showcase your company in two major exhibitions and a specialty zone

As the industry moves back to in-person exhibitions, take advantage of the one event showcasing the strengths of the UK market and research leadership.

Photonex + Vacuum Technologies 2021 is a great opportunity to reconnect with your customers; network with technology and business partners and university groups; and share in the wisdom of business advisors with knowledge of legislation, funding and IP, who can assist with solutions to overcome market barriers and market adoption.

Meet suppliers and contractor service providers across the spectrum of UK industries at Photonex + Vacuum Technologies 2021.

Photonex • 75 companies

Following 30 years of success, Photonex now continues as an SPIE Europe event. Photonex is the #1 event in the UK photonics calendar and is now set for further growth. The co-location of the Vacuum Expo means no other event of its kind reaches across so many disciplines and industries.

Vacuum Expo • 25 companies

Vacuum Expo, in its 11th Year, is well established as the event in the European vacuum technologies events diary that connects Europe's supply chain with users of vacuum technologies, in-vacuum technology and thin films.

Vacuum Expo is the ideal event for users and developers of vacuum technology, in-vacuum technology, thin film and coatings and vacuum enabled applications within academia, research and industry.

If your business supplies vacuum equipment, systems, instruments, or components, then you need a presence at Vacuum Expo to engage with new markets and customers.

Quantum Technologies Zone

Bringing the whole industry under one roof—researchers, industrial users, science groups, supplier companies and innovative newcomers—the Quantum Technologies Zone is designed to further awareness of the outstanding work being undertaken in the UK. From quantum-enabled prototypes to nearly market ready and new products, participants will have the opportunity to explore collaborations.

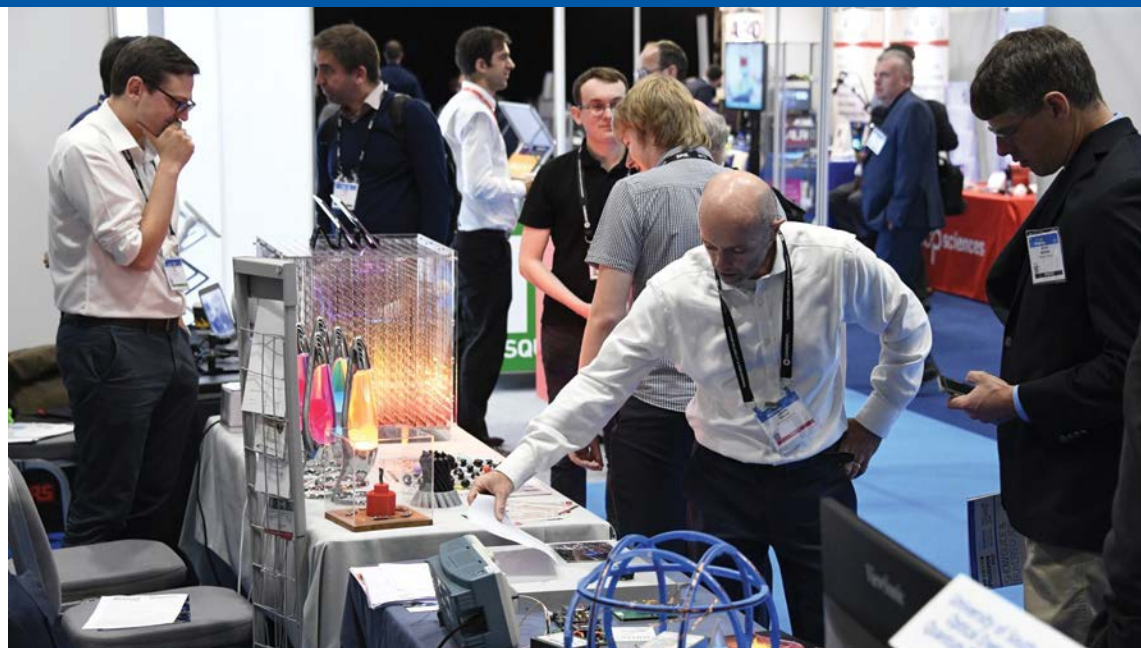

Exhibit and connect with your audience

About the attendees

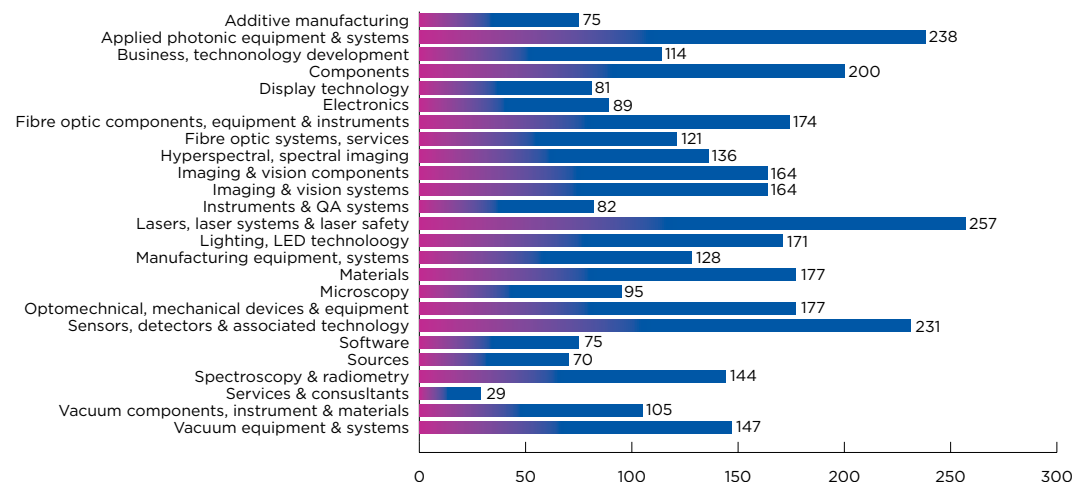

Photonex and Vacuum Expo bring the whole supply chain together under one roof: supplier companies, consultants, industrial users, researchers, science groups, and innovative start-ups.

They are leading scientists, engineers, programme managers and policy makers, primarily from around the UK but with international attendance.

Their areas of interest range from lasers and imaging equipment, photonics for biomedical applications, materials, optics, optoelectronics, fibre optics, silicon photonics and mechanics, to in-vacuum techniques, and more.

90 companies • 1,000 attendees

EXHIBITION SPACE

SPIE Corporate Member rates reflect a 15% discount. For information visit spie.org/membership.

SPACE TYPE	NON MEMBER FEE	SPIE CORP MEMBER FEE
Tabletop Display	£1065	£905.25
Shell Stand (4-8 sqm)	£355 per sqm	£301.75 per sqm
Shell Stand (≥9 sqm)	£335 per sqm	£284.75 per sqm
Raw Space (≥12 sqm)	£255 per sqm	£216.75 per sqm

SPONSORSHIPS AND ADVERTISING

Build your brand beyond your booth with opportunities to educate, entertain, and drive attendees to your booth. SPIE offers a variety of opportunities to expose your company's name, brand and products to attendees. Go online for a complete list or contact the SPIE Sales team.

What attendees are looking for:

- lasers and laser systems
- sensors and detectors
- applied photonic equipment
- components
- fibre optics
- opto-mechanical devices and equipment
- imaging
- materials
- spectroscopy
- vacuum components
- vacuum equipment
- chambers
- deposition systems
- and much more

Photonex + Vacuum Technologies is your opportunity for all this and more:

- Showcase your products and services to hundreds of buyers
- Meet new customers
- Meet more contacts in two days than you would in months of sales contacts
- Meet face-to-face: develop relationships
- Catch up with existing clients
- Provide hands-on exposure to products; give live demonstrations
- Accelerate your sales process
- Launch new products
- Find new project partners and distributors
