Keishi Yang awarded an SPIE Optics and Photonics Scholarship

BELLINGHAM, Washington, USA — **Keishi Yang** has been awarded a 2024 Optics and Photonics Scholarship by SPIE, the international society for optics and photonics, for potential contributions to optics, photonics, or a related field.

“I am deeply grateful and honored to receive the SPIE Optics and Photonics Scholarship,” said Yang, who is pursuing her master’s degree at Osaka University (Japan)“I am engaged in research on developing new measurement techniques using spectroscopic and related techniques to study the biomolecules at the nanoscale. I will utilize this scholarship to further concentrate on my research activities and strive to become an outstanding researcher.” In addition, Yang serves as president of the SPIE Student Chapter at the university, engaging in outreach activities and networking events. “I will continue connecting with scientists from around the world through SPIE, expanding my own knowledge and perspective.”

This month, the Society is awarding \$303,000 in scholarships to 72 outstanding SPIE Student Members, based on their potential contribution to optics and photonics, or a related discipline. Successful applicants were evaluated, selected, and approved by the SPIE Scholarship Committee, chaired by **SPIE Senior Member Brian Primeau**.

Since this program began in 1978, SPIE has distributed more than \$7.5 million dollars in individual scholarships. This ambitious effort reflects the Society's commitment to education as well as to the future generations of optical scientists and engineers around the world.

SPIE, the international society for optics and photonics, brings engineers, scientists, students, and business professionals together to advance light-based science and technology. The Society, founded in 1955, connects and engages with our global constituency through industry-leading conferences and exhibitions; publications of conference proceedings, books, and journals in the SPIE Digital Library; and career-building opportunities. Over the past five years, SPIE has contributed more than \$24 million to the international optics community through our advocacy and support, including scholarships, educational resources, travel grants, endowed gifts, and public-policy development. www.spie.org.
